"The Chosen"
starting 7th October

"The Chosen" is the first ever multi-season TV series depicting the life of Jesus, with five series to date.

It gives each of the disciples a backstory and puts flesh on the bones of the episodes recorded in the Gospels. It uses creative imagination to develop the stories we have read there. About a third of the audience worldwide have not been church members. It is Hebrew rather than American in feel. It is authentic without being dry. It was crowdfunded and became the most successful such TV series in history. People have been able to watch it via Amazon Prime, Netflix, Youtube and Facebook.

However, on Wednesday evenings from 7th October, you will be able to watch Series 1 of The Chosen at Holy Trinity Minsterley via our new screen and projector. Episodes vary in length from 55 minutes to 20 minutes, and include:

- The call of the disciples
- The wedding at Cana
- Let the little children come to me
- The rock on which the church is built
- I am He
- The first Christmas

Screening starts at 7 p.m. Entrance is free, with drinks offered for a donation. Feel free to bring your own snacks. We will be showing every Wednesday, with a break for half-term. If you want any further information, please contact Greg Smith at rectorpontstip@gmail.com

Church and grounds - Autumn Tidy-Up

And it goes without saying that we'll feed you coffee and cake!

A religious farmer lost his Bible out in the field. A few days later he went to answer a noise at his door. Standing there was a cow, with his Bible in its mouth. The farmer raised his eyes to heaven and thanked the Lord for this miracle. "It's not really," said the cow, "Your name was written inside."

Hope and resilience

'It will all be over by Christmas' - this was the assurance given by generals at the start of both World Wars. It is always good to have something to hope for to keep up morale, but when targets are missed and disappointment comes our way we need hope's often forgotten twin, resilience.

Resilience is both a state of mind and a way of life. It is made up of attitudes and actions. Resilient buildings and structures tend to have some flexibility built in. Bridges have tolerance to expand and contract in the heat. Skyscrapers can bend to withstand earthquakes. The massive blades of wind turbines flex to catch the breeze. Sure foundations are good thing, but solid immovable bulk does not always give the security it seems to promise. It might just prove too brittle under stress.

One reason why change can appear so threatening to us is that we build our security around our present circumstances. When those circumstances change we feel lost, anxious and angry. Doubling down (like the man who built bigger barns) rarely helps in such situations. Resilience flows from finding our true identity. When we find the central core of who we are, we can adapt to change without being toppled. But we will never find that identity without finding, or being found by, God.

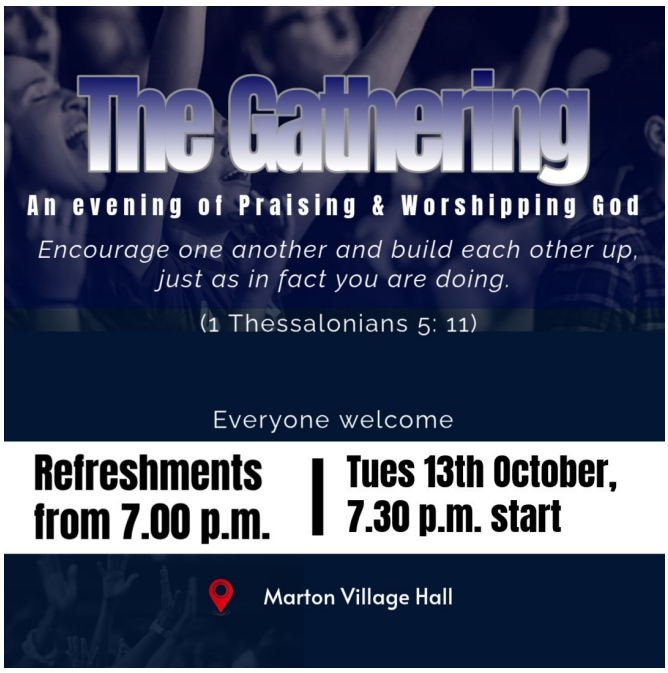

Jesus talked about us becoming 'children of God.' It is a simple but powerful message which reminds us that whatever might change in life, or prove beyond our control, we can claim an identity which can never be removed. This is the gateway to both hope and resilience. It provides a blend of certainty and flexibility to navigate life's complexities.

There is much talk about change in the life of Hereford Diocese. The Church of England all over the country is having to respond to a variety of concerns - finance, building repairs, lack of volunteers, and a reduced supply of vicars. The Church of England has had to adapt throughout its long existence. This seems like a good moment to remember and hold on to what we value, and to recommit to our core mission - following Christ and making him known.

But there may be things that God wants us to learn in this time of reflection and change, things that will actually make us stronger not weaker. I for one don't want to abandon the cherished vision of parish clergy and people working together for the glory of God and good of the community. I hope that I might live to see an abundance of vocations to ordained ministry to reverse the current trends. Whatever the future holds, the key to hope and resilience comes by knowing who we are - the children of God.

Yours in Christ,

Rev. Stephen Griffiths

The symphony musicians had little confidence in the man brought in to be their new conductor. Their fears were realized at the very first rehearsal. The cymbalist, realising that the conductor did not know what he was doing, angrily clashed his instruments together during a delicate, soft passage. The music stopped. The conductor, highly agitated, looked angrily around the orchestra, demanding, "Who did that? Who did that?"

World News . . . .

. . . .or "some more of the items you are not likely to see on the TV news"

Malaysia – Wife of missing pastor appeals to PM after court setback

The wife of missing Pastor Raymond Koh has appealed to Malaysia's Prime Minister (PM) to intervene after the Court of Appeal upheld a stay on an order requiring police to reopen investigations into her husband's disappearance nine years ago. Susanna Liew told Anwar bin Ibrahim that she was writing directly to him because time is of the essence to discover what happened to Pastor Raymond. The father-of-three was abducted, at the age of 63 by armed men while driving near his home in Kuala Lumpur on 13th February 2017.

"I write not as a litigant, but as a wife who has been left in unbearable uncertainty," Susanna wrote, "I do not know where my husband is. I do not know if he is safe. I do not know if I will ever see him again."

In November 2025 the Malaysian High Court held the government and police responsible for the pastor's abduction, and ordered a new investigation into his whereabouts, as well as awarding record damages to his family. Both orders were stayed following an appeal by the government. On 29th July 2026 the Court of Appeal dismissed Susanna's application to lift the stays.

In her letter to the PM, she said, "Every day that the investigations remain halted is another day in which the truth becomes more difficult to uncover, evidence becomes more vulnerable and the possibility of obtaining justice for my husband diminishes."

China – date set for church leaders' trial

Pastor David Tang, founder of a prominent underground church in China, and six other believers were arrested in Wenzhou, Zhejiang Province, on 5th August. The authorities have not disclosed the reason for the detention of the pastor, his church's financial administrator and five church workers, or where they are being held. All seven were arrested by Shanghai police at around 7.30am during a cross-provincial operation.

Pastor Tang is the founder of Wenzhou's Biaogan Church, known for attracting young professionals and intellectuals. It has met underground since being forcibly closed by the authorities for refusing to join China's state-sanctioned Three-Self Patriotic Movement.

Wenzhou is often called the "Jerusalem of China" because of its large Christian population, established in the nineteenth century by Protestant missionaries. However the authorities in the city and in Zhejiang Province have tightened restrictions on congregations over the last decade, including removing crosses from more than 1,000 churches.

Meanwhile eight church leaders of Zion Church network were given a trial date of 14th - 18th August. They were due to face trial for the alleged crime of "illegally using information networks."

At the time of writing no news has been released on the outcome of the trial. If found guilty, the eight church leaders face a possible three-year prison sentence. More than 200 leaders of unofficial churches are currently either imprisoned, under house arrest or otherwise detained.

Syria – Authorities release Kurdish pastor

The Syrian authorities have released a Kurdish pastor two weeks after he was arrested while visiting family in the city of Afrin, northern Syria, on Sunday 19th July. Pastor Nihad Hassan, originally from Syria, was visiting Afrin from Beirut, Lebanon. He has served the Kurdish Evangelical Church in Beirut for many years.

Pastor Nihad came to faith in Christ while a political prisoner in Syria when he started listening to Christian broadcasts. After attempting to flee Syria Nihad was imprisoned twice, including a spell in solitary confinement. Yet he said later, "I regard them as the best days of my life, because in this place I was comforted and knew the Lord."

Concerns have been raised about the Syrian government's willingness to protect religious freedoms and minority communities, including Christians.

Rea Valley Food Bank

Harvest Festival Donations

We would like to thank everyone who supports us with Harvest Festival Donations. Thank you also to the staff and volunteers at schools, churches and other community organisations who organise such events. We do appreciate everything that is given, and everything goes to local people in need across the Rea Valley. It is a very important time of year for us and greatly reduces our costs and helps our charity to keep running.

In-date and unopened packaged food, toiletries and cleaning products are always welcome. The items most in need are long-life milk and tins of meat, fish, vegetables, soup and fruit. Donations can be dropped off at Pontesbury Co-op, Longden Village Stores, or at donation boxes at many of our local churches when they are open; see our website Donating page.

REGULAR MONTHLY FINANCIAL DONORS - PLEASE CHANGE YOUR PAYMENT TO OUR NEW BANK ACCOUNT.

When the Food Bank became a charity, we were required to set up a new bank account. We do hope that you will be able to help us to continue with this much needed local community service. If you have not received our emails, please see our website https://reavalleyfoodbank.co.uk/donating/ for details and contact our treasurer, Jonathan Brown (07497 142485) or email: reavalleyfoodbank@gmail.com.

Wordsearch for St Luke's Day

To St Luke, whose feast-day is 18th October, we owe a beautifully written gospel as well as the Book of Acts. He was a Greek physician and faithful travelling companion to St Paul. Under house arrest near the end of his life Paul noted, 'only Luke is with me'. Luke's gospel focuses on the compassion of Christ, and offers us moving parables, such as the Good Samaritan and Prodigal Son.

Women figure more prominently in Luke's gospel than in any other: look out for the extended story of the Virgin Birth, and stories of Mary, Elizabeth, and the woman who was a sinner. His gospel also features more poor people, more lepers, more 'sinners', who are all shown to be 'inside' the love of Christ.

In Acts, Luke skilfully links sacred and profane history, as subsequent archaeology has shown. He tells of how the early Christians moved away from Jerusalem into the pagan world, and especially on to Rome.

Brian recited the 39 articles as he did up each button

What Climate Crisis?

What did you think of Andy Burnham's first two days in Parliament? It is good to have a Prime Minister who is enthusiastic and determined to tackle the problems we face but I think he should have been honest with the public about the reality of the situation.

Climate Change is probably the most serious of all the problems. People promptly switch off whenever those words are mentioned. Not because they aren't concerned but simply because of the question, "Will what I do or what the country does have any effect?" However, to do nothing is simply to abandon hope and consign our young people to a desperate future.

How serious is the situation? In 2024 Defra (Department for Environment, Food and Rural Affairs) issued a report about the effects of Climate Change. The Government didn't publish it! Pressure from concerned Members of Parliament produced a redacted version and there was a debate by MPs on the 3rd of September at which members repeatedly asked for the full report. But the Times Newspaper on the 24th March 2026 revealed some of the contents including the words "..there was a realistic possibility that by 2030 (increasing to 2050) our food, water and natural ecosystems are at strategic risk of catastrophic failure." The report was issued in 2024, well before the heat waves we have been experiencing which have resulted in two years of the worst harvests on record. Harvests in the EU, from which we import about 30% of our food, have also been badly affected. What can we do then, both as country and as individuals?

First, if as a country we work together to adapt our nation to what is coming, we could build a much better and fairer society. Climate Change does actually provide an opportunity for real cooperation but it needs about 25% of the adult population to be actively concerned to provide a tipping point. I do believe this is possible and am emailing as many Climate Change organisations as I can urging them to take action. I'll let you know next month whether I have had any success.

Second, what can you do? To keep the article short, just three things! I hope to suggest more next month.

1. Persuade your village to host the "National Emergency Briefing" film (50 minutes) which is well worth watching. Google that title for details.
2. Email Andy Burnham with copies to Julia Buckley and Dame Angela Eagle MP, head of Defra, expressing your concern and asking that urgent action be taken.
3. Pray.

Sorry for the long article, but I am passionate about this because I care for my children and grandchildren and all young people. For their sake, we must act.

Heather Kidd's Report for September

558 Bus

An improved bus service from Montgomery to Shrewsbury is now in operation. The timetable for the 558 bus (Shrewsbury - Westbury - Worthen - Marton - Chirbury - Montgomery) has 5 buses a day instead of 4 at times more convenient for those going to work and college. The route will use the new 'Hotspur' buses. The tender for the 552 and 553 buses are not up for renewal and these services will run as normal.

Possible New Bus Service

Shropshire Council is working with Powys Council to try and establish a new bus service using money largely from the Welsh Government. If the bid is successful it will run four times a day and connect the station at Newtown with Craven Arms Station via Chirbury and Bishop's Castle.

20mph Speed Limits outside Schools

As it is proposed to reduce the speed limit from 60mph outside Norbury school, the law requires a consultation be held. The new limit will then be installed if approved by residents. Some more parking has already been provided on the school site. This consultation is only open until the 2nd October. If you wish to make any comments on these proposals, please email traffic.engineering@shropshire.gov.uk.

Long Mountain School, Worthen - is being installed as we go to press.

Chirbury - The power company have finally connected the signs and hopefully the limit should have gone live by the time you read this.

Road Repairs

The road surface on Lower Lane in Chirbury will be repaired. Some temporary fills have been done and these will be followed by permanent fills, drainage works and top dressing.

Work to repair the landslip on Walton Hill near Brockton commenced on 7th September following on the resurfacing of the adjacent road up Hampton Beech road earlier this year.

The landslip on the A490 - the land alongside the road is now in the final stages of purchase and the new road will be moved away from the unstable bank. Hedges will be removed pending the starting of the works.

Hardcore has been supplied to residents living on the Pennerley BOAT (By-way Open to All Traffic) to help them fill sections that have eroded.

New Homes

Building of the affordable housing scheme in Marton has been completed. Six of the properties are available to part buy. If you are interested then contact:.sales@connexus-group.co.uk. Having a local connection would be an advantage.

Road Closures

Severn Trent have been up to their old tricks again and closing roads without telling anyone! The usual reason is that it's an emergency. Sometimes that's true, sometimes it isn't. Contact me if this happens in your area. They tried this in Crows Nest the other week, but I got our highways inspectors to get them to complete their task rapidly and not leave the road closed over the weekend!

Questions you might ask

Question - In simple terms could you explain exactly what the DPA (Data Protection Act) is?

Answer - The Data Protection Act is a UK law that controls how organisations and businesses collect, store, and use your personal information.

Think of it as a set of rules that anyone handling your data must follow to protect your privacy. When a company holds information about you — your name, address, email, medical records, etc. — the DPA gives you rights and puts obligations on them.

Your rights include:

Seeing what data they hold on you
Having wrong information corrected
In some cases, having your data deleted
Knowing *why* they're using your data

Their obligations include:

Only collecting data they actually need
Keeping it secure
Not holding it longer than necessary
Not sharing it without good reason

In a nutshell it's essentially the law that stops companies doing whatever they like with your personal information, and gives you control over how it's used.

theWI INSPIRING WOMEN

You will recall that last year we carried personal reflections of the war years. The editor was recently contacted by someone researching the wartime crash near the Stiperstones, involving Whitley bomber BD420 and the Horsa glider it was towing. Here is an extract from Phill's letter:

During my research I came across a reference to an article in the Minsterley Parish Magazine called "My story of life in the war years" by Wilfred Overton. From what I have been able to find, I understand that the article mentions the glider releasing from the Whitley and landing safely in a field at Wagbeach.

That immediately caught my attention because I grew up in Wagbeach and knew Wilfred and his wife Wendy, as well as their children Sandra and Richard. Richard was a couple of years older than me and we spent quite a bit of time together growing up.

I also visited the Whitley crash site at Mytton Dingle with friends from Snailbeach in around 1987. At the time there was still quite a lot of small wreckage around the site. I remember finding a small piece of riveted green aircraft structure with numbers stamped into it and a switch still attached, as well as numerous damaged ammunition cases scattered around the area.

I'm particularly interested in anything Wilfred wrote about the Horsa landing at Wagbeach, as I know the area extremely well and may even be able to work out which field he was referring to.

Seeing Wilfred's name come up during my research brought back some very good memories of growing up around Wagbeach.

I was also surprised to see the photograph of the Hope Home Guard platoon — my grandad, Bill Jones, is on the bottom row, far right.

Phill Jones

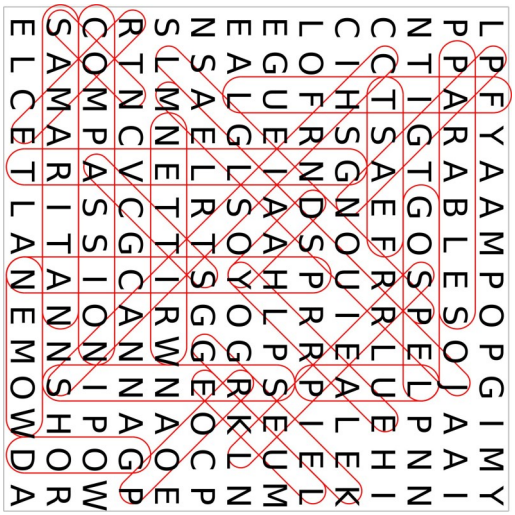

[If you know anything about the glider landing at Wagbeach, Phill would love to hear from you.]

From 4th November 2024

To the optimist, the glass is half full. To the pessimist, the glass is half empty. To the engineer, the glass is twice as big as it needs to be.

As my five-year-old son and I were heading to McDonald's one day, we passed a car accident. Usually when we see something terrible like that, we say a prayer for whoever might be hurt, so I pointed and said to my son, "We should pray." From the back seat I heard his earnest voice: "Dear God, please don't let those cars block the entrance to McDonald's."

Realise your dream! Unless it's the one where you're at work in your underwear during a fire drill.

There are three religious truths:
a. Jews do not recognise Jesus as the Messiah.
b. Protestants do not recognise the Pope as the leader of the Christian faith.
c. Baptists and Methodists do not recognise each other in the off licence.
